Absorbent Roll (44m*96cm) Special All Liquids

S01R21

Product short description:

Water-absorbing MGT rolls, ideally suited to the industrial environment. Absorb all liquids (hydrocarbons, water, non-aggressive chemicals etc.). 100% polypropylene, the all-liquid rollers offer high absorption capacity and immediate reduction in pollution. Grey absorbent that masks dirt, for prolonged use before destruction. All-liquid absorbent roll with double-sided fleece for high tear strength, even when saturated with liquid. Easy dispensing thanks to the roll's pre-cutting system.
