Hydrocarbon Absorbent Sheets Reinforced Range (CA 94L)

S01R80

Product short description:

Absorbs only hydrocarbons and not water. High absorption power thanks to their double thickness. Their honeycombed material promotes absorption of liquids and their anti-lint fleece increases strength and ruggedness. ideal for industrial maintenance, they are suitable for recovering oil spills or leaks. Can also be used to absorb water. With the central perforations of the sheets, only half of the sheet needs to be used. Sack of 100 sheets - 1 reinforcement fleece
