ECOFLY bin 20 L

T01G30

Product short description:

Elegantly designed waste separation bin in brushed stainless steel with anti-fingerprint finish and plastic liner. This model is perfectly suited for small spaces thanks to its narrow design and the pedal placement on the narrow side. The silent-closing lid opens in two parts, making it easy to place under worktops. The bin is easy to move thanks to the handle on the front and the built-in wheels.
